About me

During my engineering studies at Warsaw University of Technology, I was a part of WUT Students' Council, where I got invaluable experience in student project planning and execution. Since graduation, I have worked in the field of waste management in the two largest waste management companies in Warsaw. My position required me to be precise, to pay attention to details and to meet deadlines.

For the last months I have been developing my skills in the area of manual testing of IT products. I would like to use my personal qualities and past experience in new challenging QA projects.

Knowledge

Language	**English** *intermediate level (B2 certificate)* **Polish** *native*
Programming languages	**Python** *basic level* **SQL** *basic level*
Technical skills	**Jira** *basic level* **Mantis** *basic level* **TestRail** *basic level* **TestLink** *basic level* **Quantum GIS** *basic level* **ArcGIS** *intermediate level*
